The **NEW** industry
standard in Drainable
Floor Doors.

- Integrated spring and stiffener create lighter unit
- Non-slip safety grate rails
- Two nut rails standard with safety grate option

Drainable Floor Door

Drainable

FLOOR DOOR, 300PSF

Nystrom's newly redesigned Drainable Floor Door is intended for standard-duty exterior or high moisture areas where liquid flow is required. The frame is constructed with a gutter channel for runoff into a drainage system and includes an odor tight gasket.

FEATURES

LARGEST CLEAR OPENING The redesigned components are engineered with a maximum clear opening per comparable size against the competition.

OPTIONAL SAFETY GRATE Add additional safety and security to your floor door with a grate and nut rail. The grate is serrated for added slip resistance and allows for a 6 inch testing area.

DETAILS

LOAD 300 psf live load

MATERIAL Aluminum: 1/4 inch, mill finish with gray primer on exterior frame

COVER Diamond tread plate

FRAME Drainable gutter frame with integral 1 inch anchor flange, EDPM airtight gasket and 1-1/2 inch drain coupling
