

PROJECT PROFILE

Sprague Building & Courtyard Building

TRANSFORMING HYDE PARK WITH ARCHITECTURAL SOLUTIONS

Product Expertise and a Collaborative Approach Support Residential Development

Located in the Boston, MA neighborhood of Hyde Park, this transformative development brings 247 new housing units to the community and an array of lifestyle amenities. The project is composed of two five-story buildings - the Sprague Building and the Courtyard Building.

With the contractor navigating a tight budget, Nystrom stepped in to deliver high-value solutions that met the project's needs without compromising performance. The Nystrom team helped evaluate door options and identify products best suited for the unique structural layout and resident-focused environment. Throughout the process, Nystrom responsiveness, product knowledge and commitment to partnership ensured a smooth and efficient experience—reinforcing the trust Emond Plumbing & Heating Inc.

places in the broader Nystrom team. The result is a project that not only enhances the Hyde Park community, but exemplifies the value of thoughtful collaboration.
